Profile

Passionate about crafting robust and scalable web applications, I bring 2 years of hands-on experience in Full Stack development with a focus on Node.js and React with knowledge & experience in SDLC and Scrum-based project development methodologies.

Professional Experience

Full Stack Developer, *Raylancer LLP* ⧉   2022 Sep – 2023 Jun
Responsible for: Noida, India

- Developed reusable UI components using React.js, Redux, and Typescript to enhance front-end user experiences.
- Built robust REST APIs using Node.js, Express.js, MongoDB, Sentry, and Nest.js for efficient data management and integration.
- Created comprehensive documentation, detailing feature implementations to enhance codebase maintainability and team collaboration.
- Conducted code reviews and mentored junior developers to uphold coding standards and best practices.

Full Stack Developer, *Hyperreality Technologies* ⧉   2022 Jul – 2022 Aug
Responsible for: Bangalore, India

- Collaborated on the TTeirs app, leveraging Next.js, Bulma UI, and Redux to deliver a user-friendly application with seamless functionality.

Associate Software Engineer, *iMentus Technologies* ⧉   2021 Jun – 2022 Jun
Responsible for: Indore, India

- Worked on development of a Stellar blockchain-based banking application from inception using React.js, Redux Toolkit Query, Sentry, Material-UI, and SEP protocols.
- Worked on optimizing application performance and security measures to ensure a smooth and secure user experience.

Skills

- HTML/CSS
- React JS/Next JS
- Material UI
- NodeJs
- Mongo DB
- Git/Github

- Javascript/Typescript
- Redux/Redux Toolkit
- Tailwind CSS
- Express JS
- PostgreSQL
- Docker

Projects

Multi-Vendor E-commerce Platform   2023
Tools & Technologies
Nodejs,Expressjs,MongoDb,Material UI,Sentry,Typescript,React.js,Redux
Toolkit,Coinbase
- Developed a multi-vendor platform where vendors can sign up and sell their
  products. Part of the end-to-end solution development, including creating
  the backend services, mobile and web application development, testing,and
  deployment.
- Implemented various features including product management, inventory
  management, user authentication and authorization, payment gateway
  integration, and order management.
- Optimized the web app performance and speed using techniques such as
  code splitting, lazy loading, and caching.

MLM DASHBOARD FOR EDTECH COURSE SELLING WEB APP   2023
Tools & Technologies:
React js,Redux,Node js,Express js,Tailwind CSS,PostgreSQL
- Developed a comprehensive MLM dashboard to enhance the user
  experience for an EdTech platform focused on selling courses. Took on the
  responsibility of full-stack development, including creating the backend
  services alongside testing and deployment.
- Implemented a range of essential features to facilitate MLM activities,
  including user management, course tracking,commission calculation, and
  performance analysis.

PatternZ, *Customized generative arts for web3* ⍈   2022
Tools&Technologies:
Nodejs,MongoDB,NextJS,Tailwind css,Web3.js,MetaMask wallet,Canvas API
- Patternz is an easy to use platform where any user can create their own art
  pieces and add to the collection.
- Pattern is an 8x8/9x9 block structure where each block is needed to be
  filled with color, lines,shapes etc. Each block needed to be filled to complete
  the piece. User can choose the background, design the background, set the
  colors, etc.

Ebioro, *Banking and Payment* ⍈   2021
Tools & Technologies:
ReactJS,Redux Toolkit Query,Material UI,Sentry,Typescript,Stellar Blockchain
Role: Front end Developer
Team Size: 2
The client is a well-known company in Europe for micro payment-based
services. This application enables cross-boundary transactions very cost-
effectively by leveraging Blockchain technology infrastructure.

Education

Bachelor of Technology, *Abdul Kalam Technical University*   2020
                                                                     Noida, India
